Secondary Care Wait Times (note: wait times are shown in WEEKS)

Sussex MSK Partnership

- The waiting times published in this document are an indication of what the average length of time may be as reported to us by the respective hospitals - it is intended to be used as a guide only.

- Please note: due to recent and ongoing industrial action we expect waiting times to be impacted. We cannot accurately predict how long this will delay first appointments or definitive treatment.

- The information provided should not be taken as a guarantee of the exact waiting time that a person should experience between referral to hospital and first appointment. Any queries relating to your hospital appointment should be directed to the hospital in the first instance.

- If your symptoms change or get worse whilst waiting for your hospital appointment, please contact SMSKP for a telephone assessment with a clinician familiar with your care who can provide you with advice and guidance.
